

REISSUE APPLICATION DECLARATION BY THE ASSIGNEE

I hereby declare that:

The residence, mailing address and citizenship of the inventors of the patent for which reissue is sought are stated below.

Bone Care International, Inc., is the owner by assignment of the entire right, title, and interest in U.S. Patent No. 5,861,386, issued January 19, 1999, for "Method for Treating and Preventing Secondary Hyperparathyroidism."

I am Vice President, Corporate Development, of Bone Care International, Inc., and am authorized to act on its behalf.

I believe that the inventors named below are the original and first inventors of the subject matter described and claimed in U.S. Patent No. 5,861,386, for which a reissue patent is sought on the invention entitled "Method for Treating and Preventing Secondary Hyperparathyroidism," the specification of which is attached hereto and which is amended by the preliminary amendment filed herewith.

Inventors

Joyce C. Knutson, Madison, Wisconsin, a citizen of the United States
Mailing address: 24 North Prospect Avenue, Madison, WI 53711

Charles W. Bishop, Verona, Wisconsin, a citizen of the United States
Mailing address: 8550 Bakken Road, Mt. Horeb, WI 53572

Richard B. Mazess, Madison, Wisconsin, a citizen of the United States
Mailing address: 3534 Blackhawk Drive, Madison, WI 53705

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by the amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 C.F.R. § 1.56.

With respect to applications to which this application is related as a continuation-in-part and to which this application claims priority under 35 U.S.C. § 120, I acknowledge the duty to disclose information material to patentability as defined in 37 C.F.R. § 1.56 which became available between the filing date(s) of the earlier applications and the filing date of the continuation-in-part application.

I believe that the original patent identified above is wholly or partly inoperative or invalid by reason of the patentees claiming more or less than they had the right to claim in the patent.

This application for reissue is based on at least the error that the full breadth of claim 1 is not supported in accord with the written description requirement of 35 U.S.C. § 112, first paragraph, by the specification of the patent as filed.

All errors corrected in this reissue application by the amendment filed herewith arose without any deceptive intention on the part of the applicant for reissue.

I hereby appoint the practitioners named below as our attorneys or agents to prosecute the application identified above, and to transact all business in the United States Patent and Trademark Office connected therewith.
